

Mi Selfie Stick Tripod

Instructions:

Mount the remote shutter:

Open the package, and mount the remote shutter onto the rubber slot of the stick.

Bluetooth pairing:

Turn on your phone's Bluetooth feature, and locate "XMZPG" for pairing. When the flashing stops and turns solid blue, the pairing is completed.

Open the phone holder:

Hold the stick with its front facing up, and pull open the phone holder by 90°, and rotate it by 180° to face it towards you.

Fix your phone:

Rotate the phone holder to a fit position and extend the rod, then fix your phone on the holder.

Set the tripod:

Open the tripod from the bottom, and place it on an even surface.

Detachable Bluetooth remote:

- Detachable Bluetooth remote with wireless range of 10m;
- Charging port locates on the top of the remote.

Functions	
Bluetooth name	XMZPG
Charging	the camera button flashes red to indicate low power and require immediate re-charging. During recharging, the red light is on, and then turns blue once fully charged.
Camera	the camera button lights blue to indicate readiness for shooting.
Taking photos	press the camera button.

Turning on for pairing	press and hold the camera button for 2 seconds to turn on the remote shutter for pairing.
Turning off	press and hold the camera button for 3 seconds to turn off the remote shutter.
Paired	the camera button lights blue.
To be paired	the camera button flashes blue.
Sleep mode	the remote shutter enters sleep mode in 10 minutes if it fails to pair, and the light will be dimmed to 20% brightness and cease to flash. It will not turn off during sleep mode.
Exit sleep mode	press the camera button to exit sleep mode and restore 100% brightness. The remote shutter will pair to last connected device as it exits sleep mode, and flash blue if fails to pair.
Connection lost	when your remote shutter loses connection to your phone due to long distance or other reasons, it will enter sleep mode.
Pairing and shooting during charging	the remote shutter works even when it is charging.

FCC ID:2AJ7P-ZPG01YM

CAUTION:

Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the equipment.

Federal Communications Commission (FCC) Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Regulatory Notice for Users In USA

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

WEEE statement

*All products bearing this symbol are waste electrical and electronic equipment (WEEE as in directive 2012/19/EU) which should not be mixed with unsorted household waste. Instead, you should protect human health and the environment by handing over your waste equipment to a designated collection point for the recycling of waste electrical and electronic equipment, appointed by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences to the environment and human health. Please contact the installer or local authorities for more information about the location as well as terms and conditions of such collection points'.

European Union -Declaration of Conformity

Hereby, Beijing Yueme Technology Co., Ltd. declares that the radio equipment type XMZPG01YM is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: <https://www.mi.com/en/service/support/declaration.html>
